Test Registration, Login and Logout in Swagger

Verify the password is hashed in SQL Server

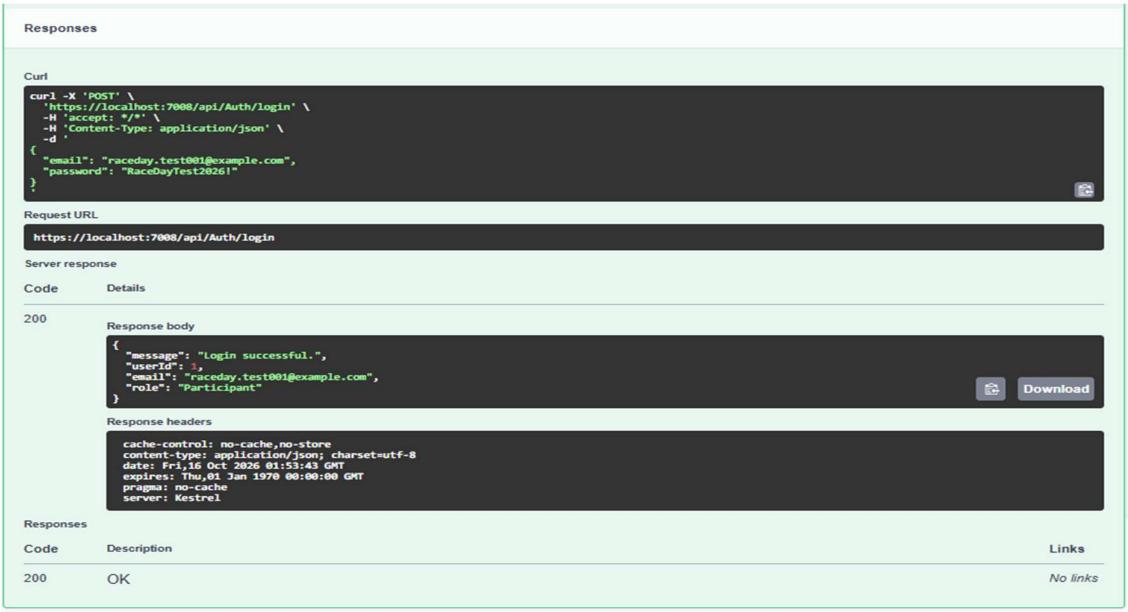

Test login successful

{

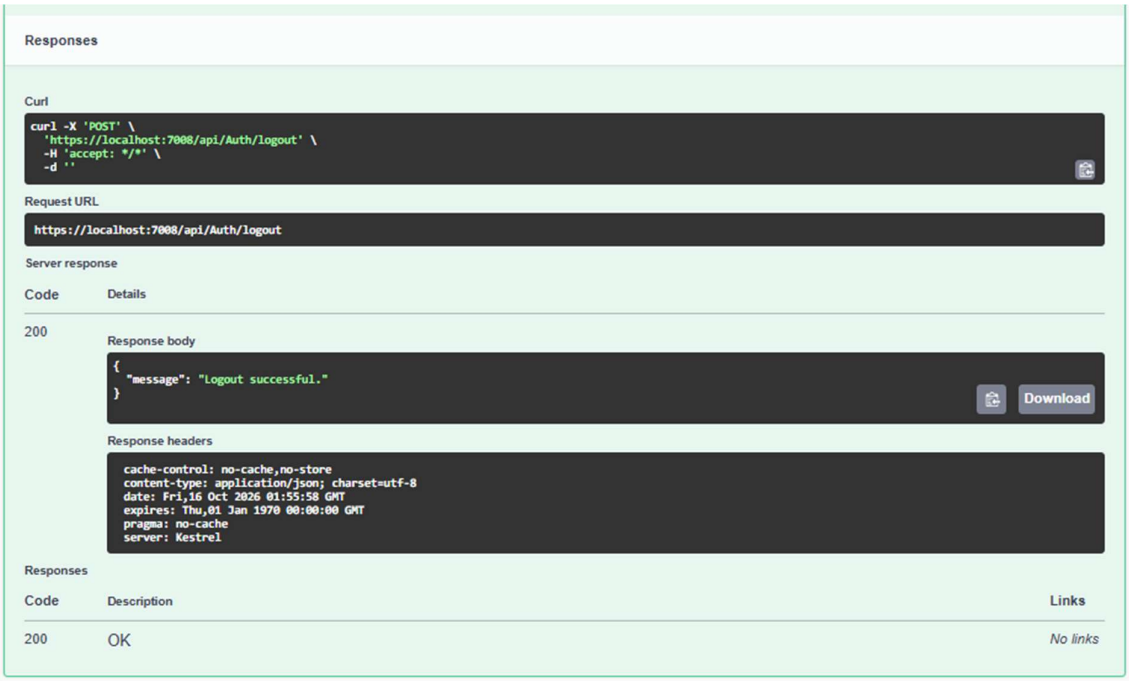

"email": "raceday.test001@example.com",

"password": "RaceDayTest2026!"

}

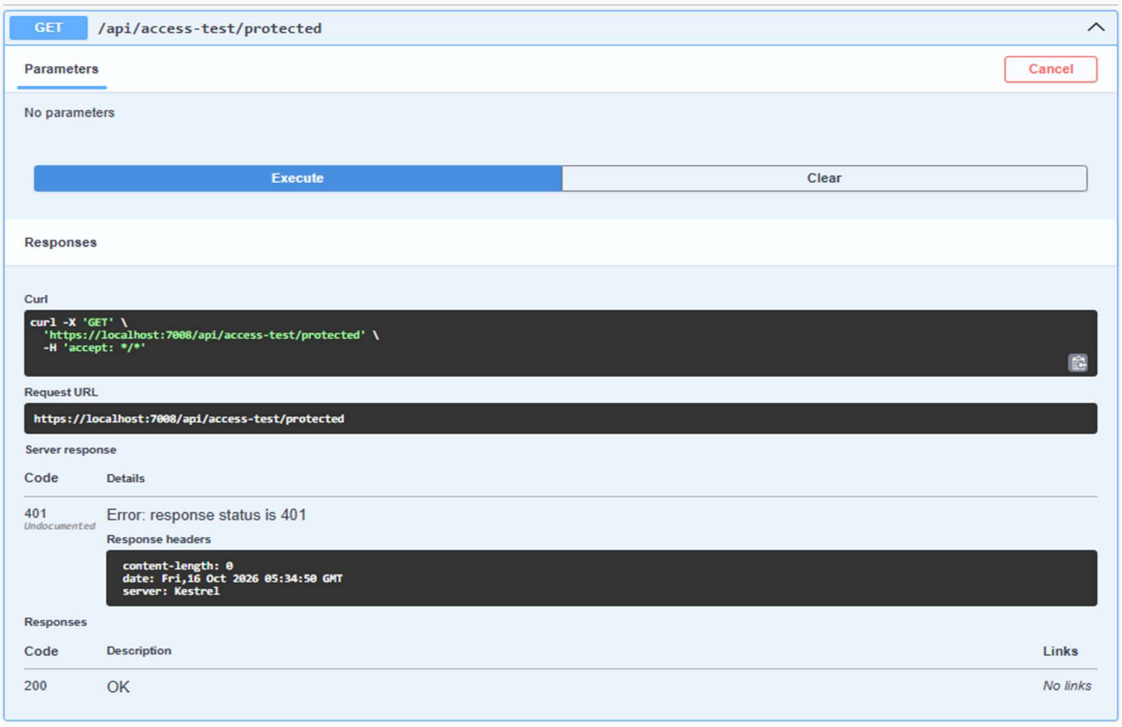

Test logout successful

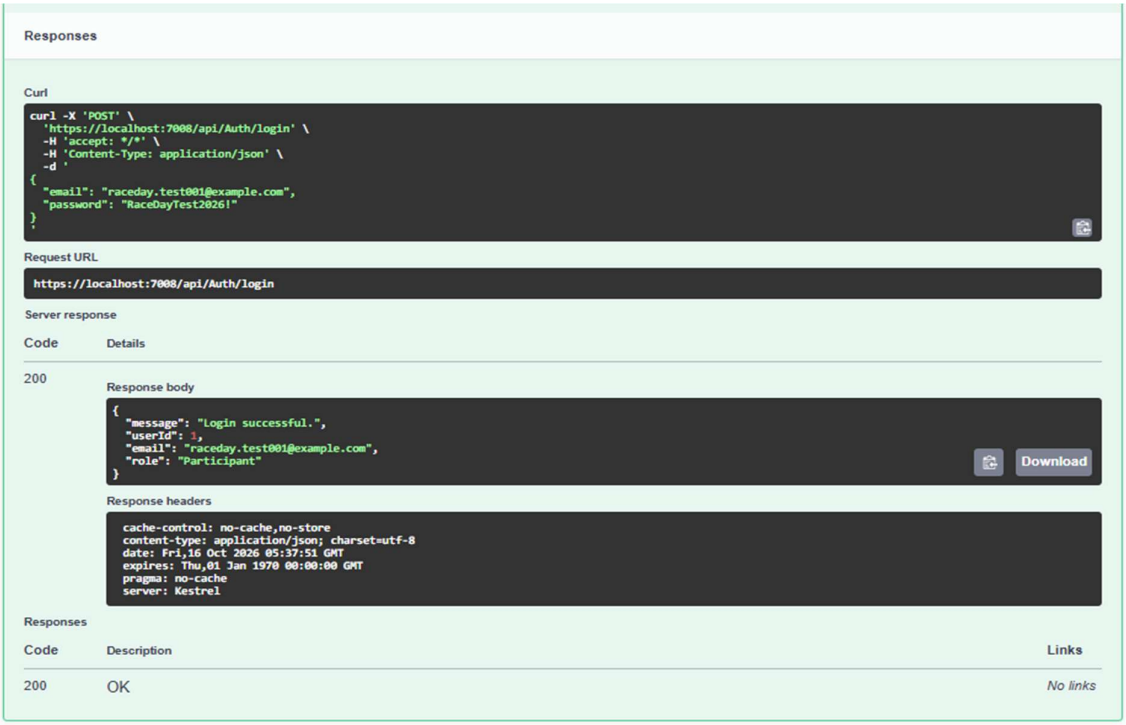

Protected Endpoints and Role-Based Access

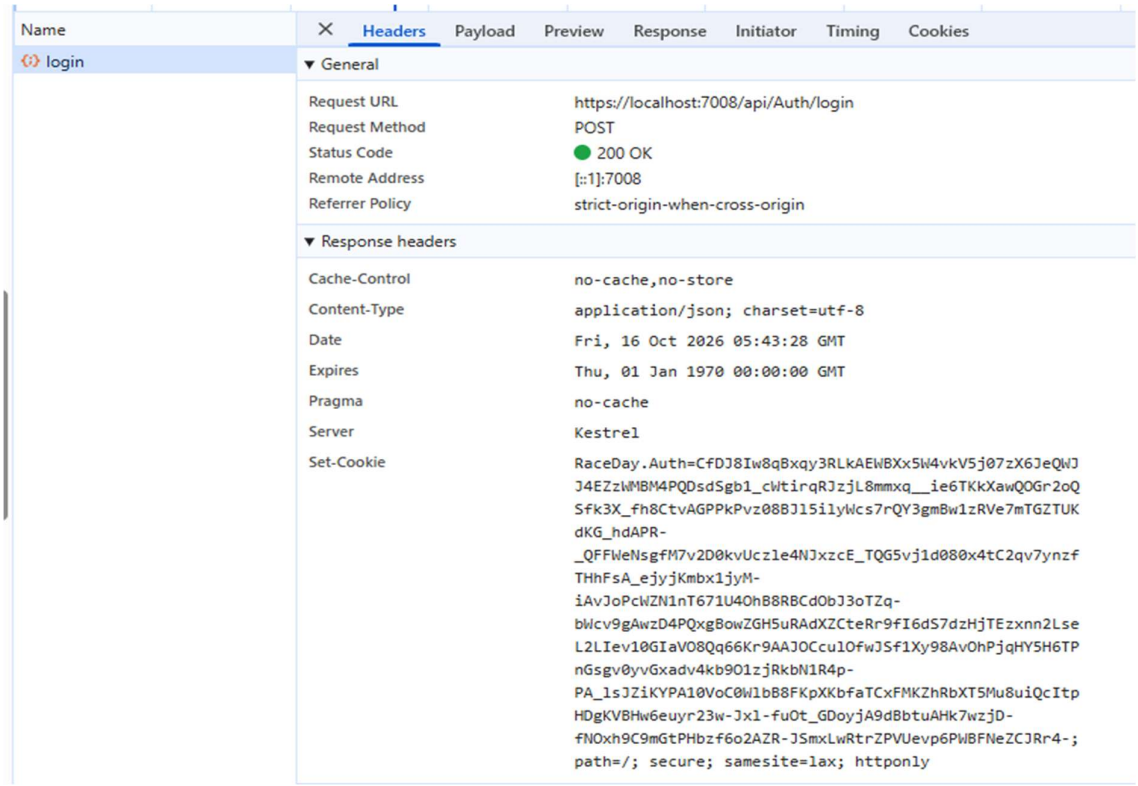

Test anonymous access; error

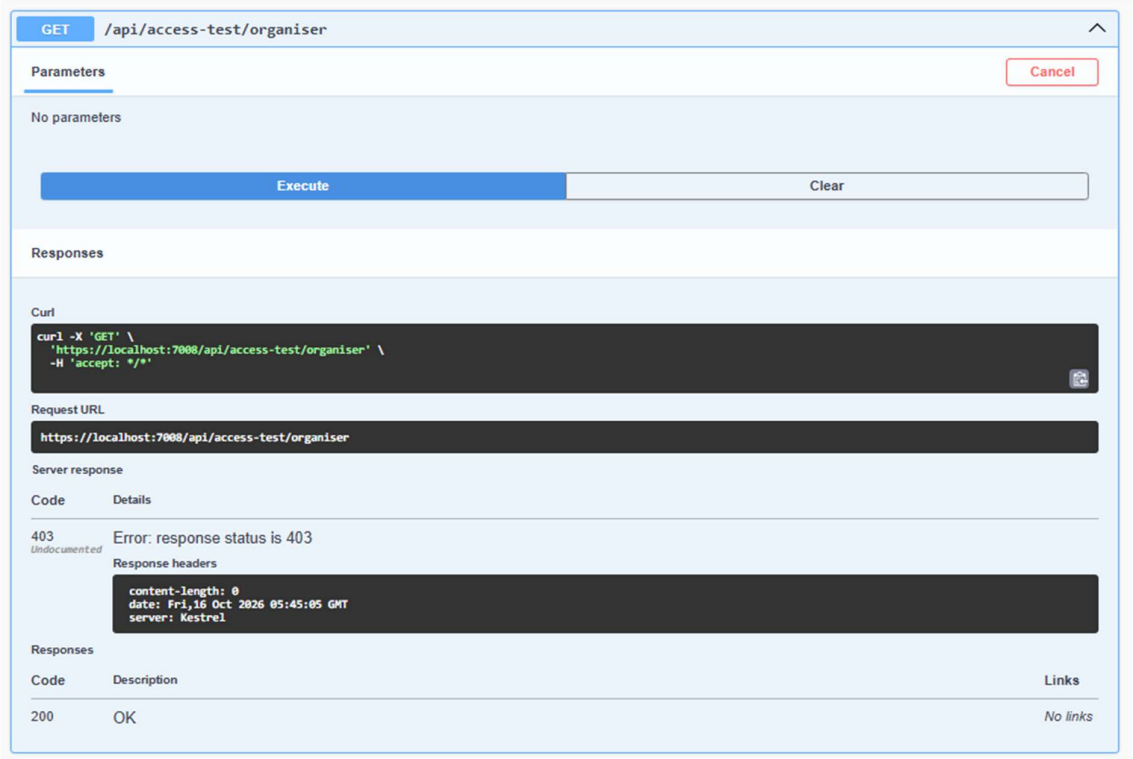

Test Participant access; 200 OK

Set-Cookie

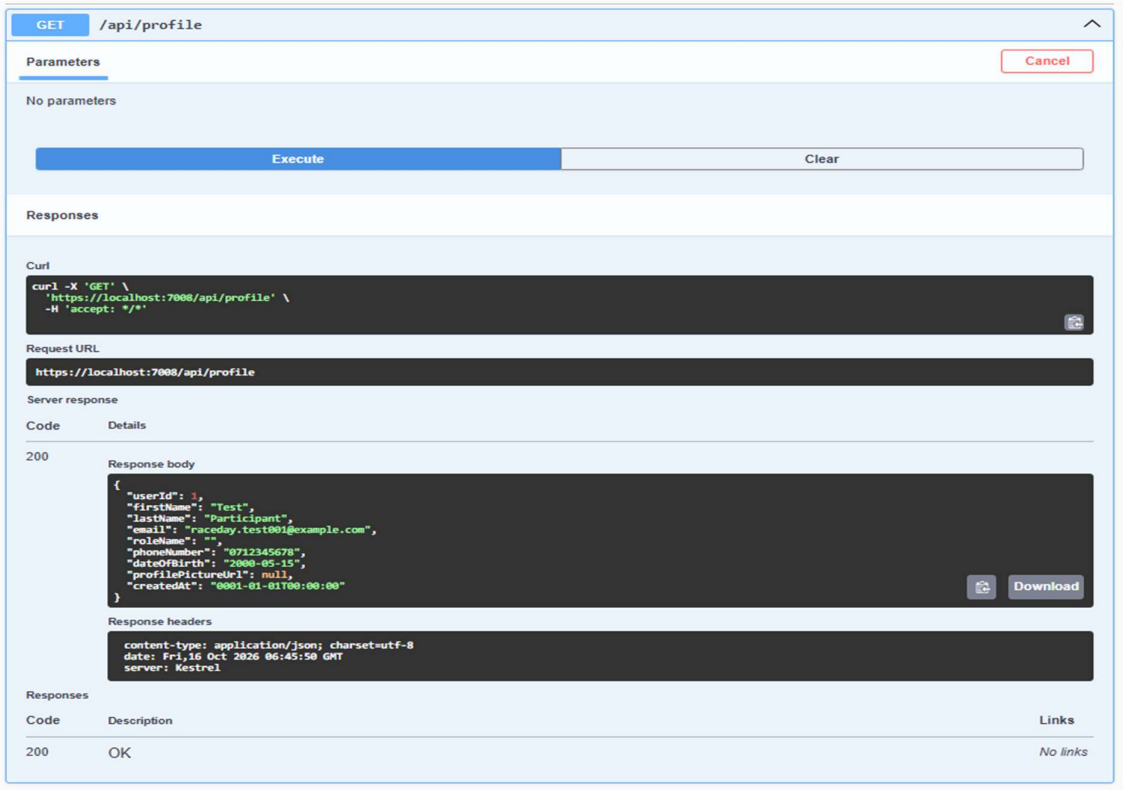

Test Organiser access rejection

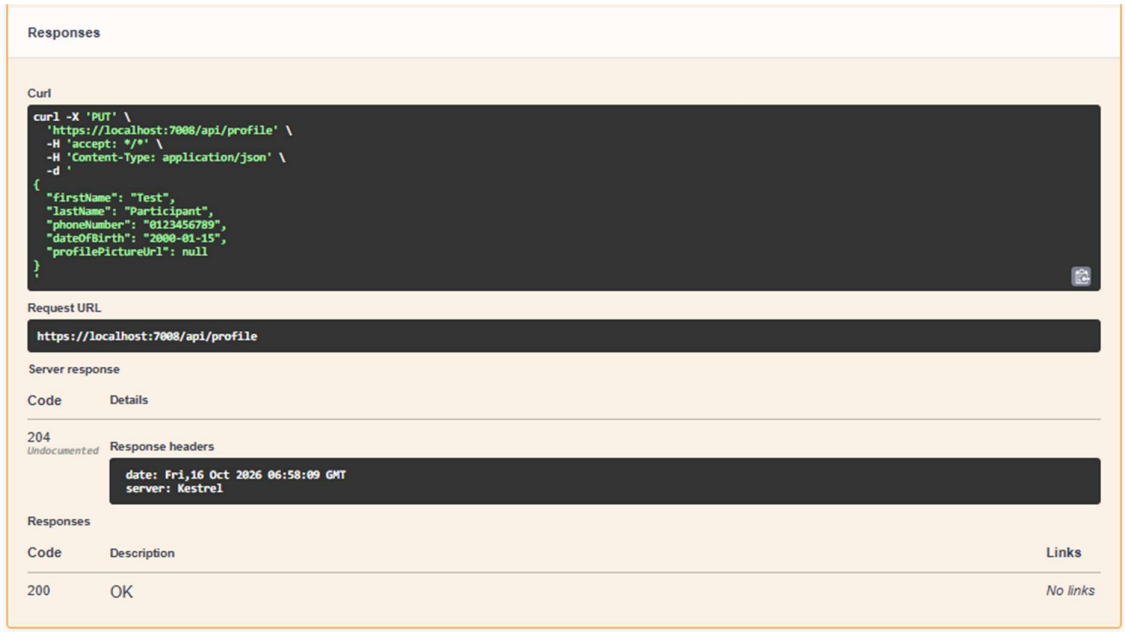

Test GET /api/profile

200 OK: The authenticated user's profile was retrieved.

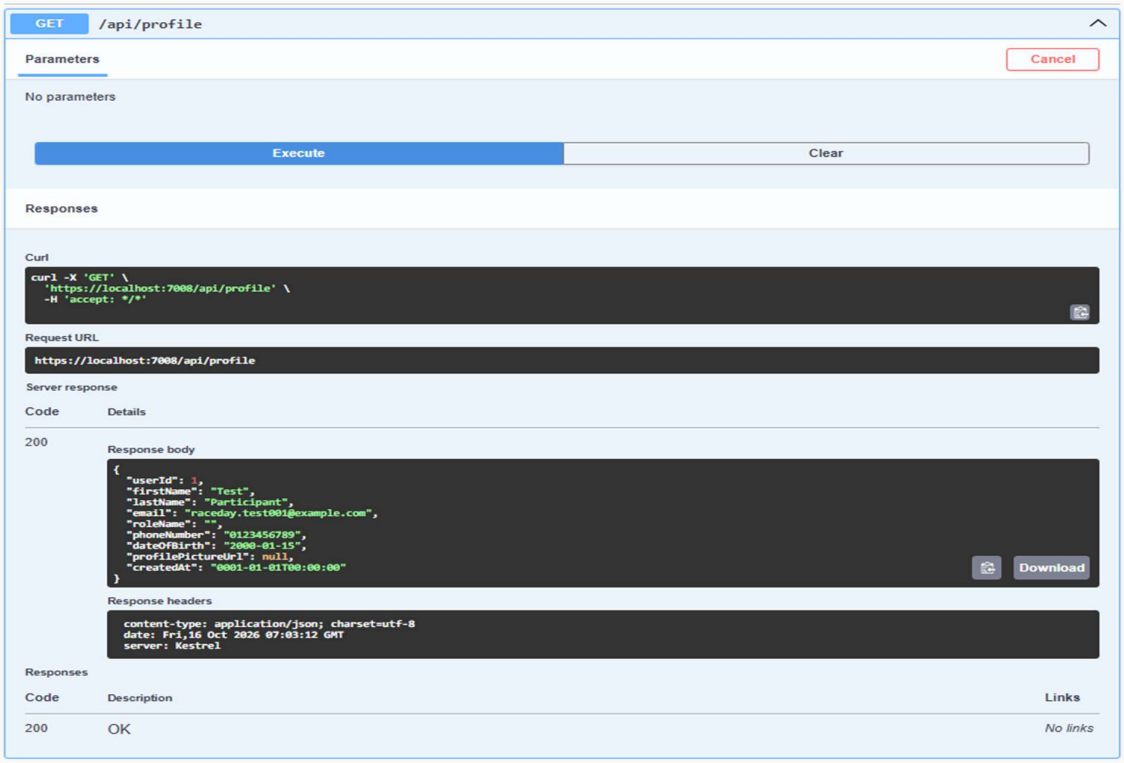

Test PUT /api/profile

Result; The update succeeded. A 204 response normally has no response body.

Verify the update

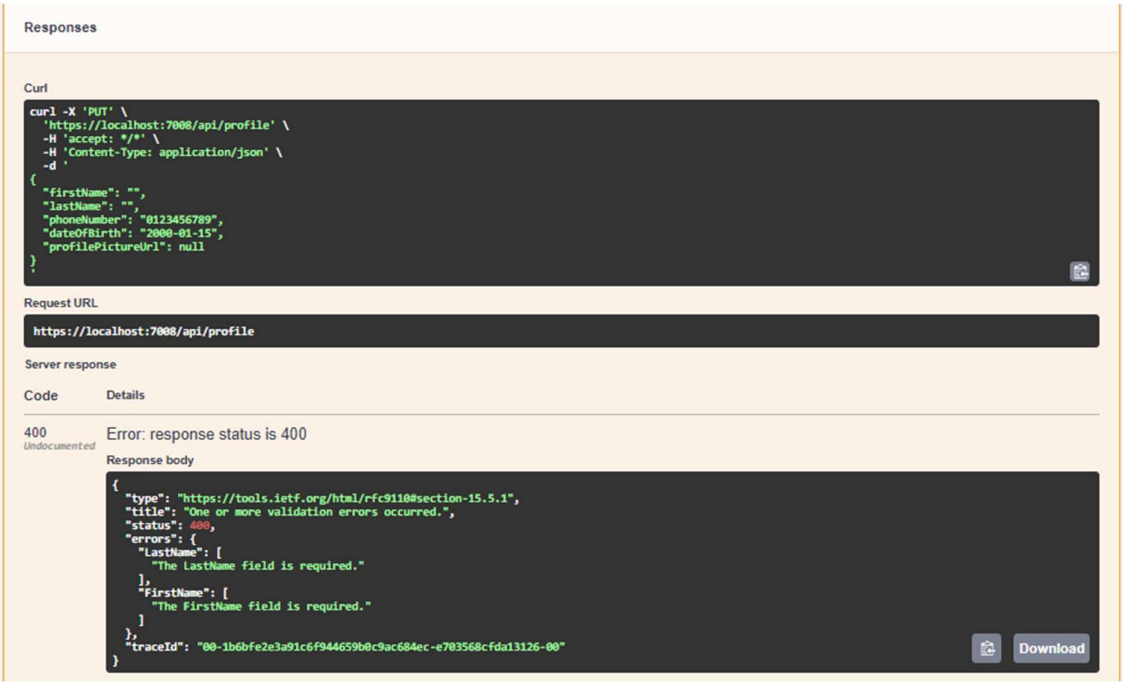

Run GET /api/profile

Test invalid profile data

Confirm that the API rejects a profile update when required fields are missing.

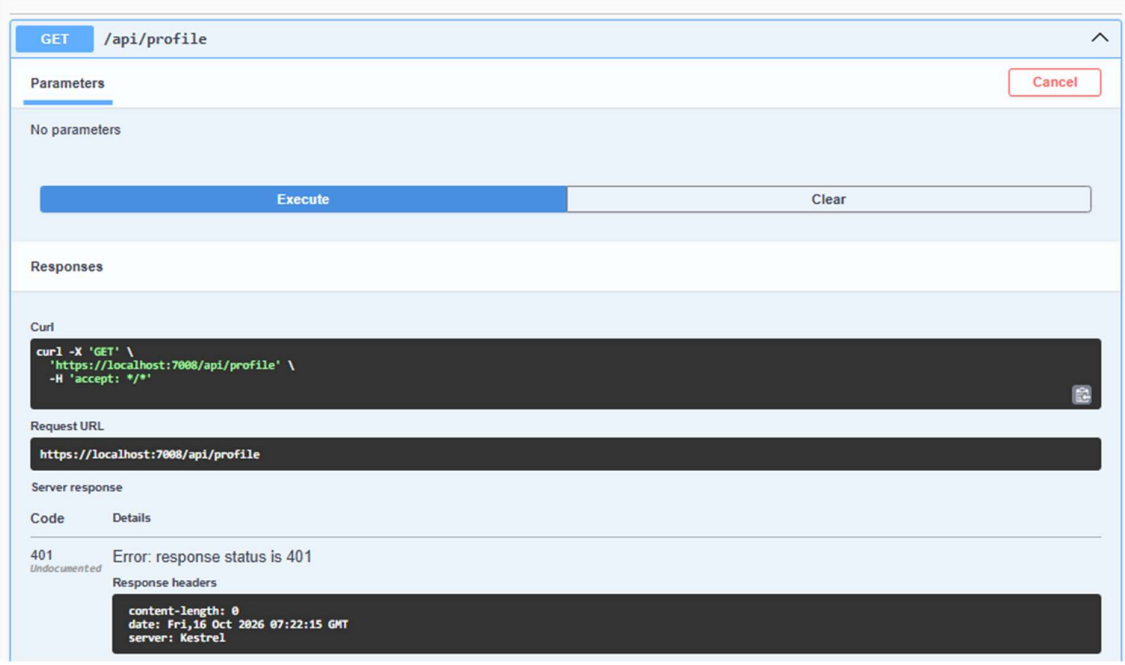

HTTP 400 Bad Request; first name and last name are required.

Test the authentication requirement

Verify that an unauthenticated user cannot retrieve a profile.

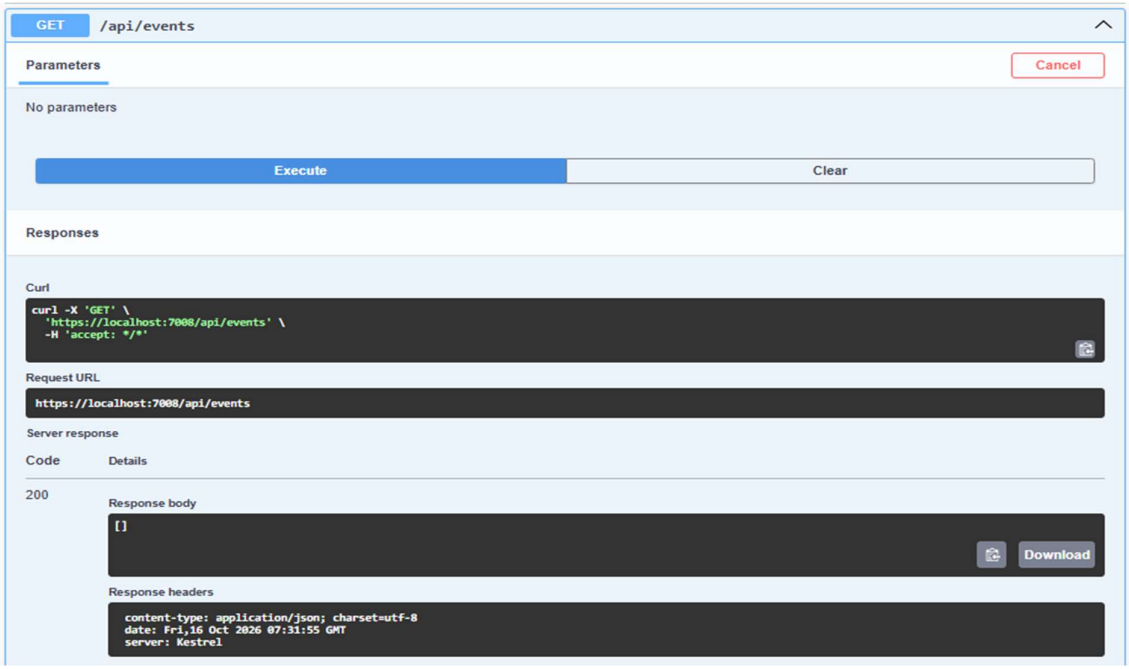

Result: HTTP 401 Unauthorized.

Test GET /api/events

The endpoint retrieves events from RaceDayDB_Part2.

Result; HTTP 200 OK

Organiser

{

"firstName": "Test",

"lastName": "Organiser",

"email": "organiser.test@raceday.local",

"password": "RaceDay_Test_2026!",

"phoneNumber": "0123456789",

"dateOfBirth": "1995-05-15"

}

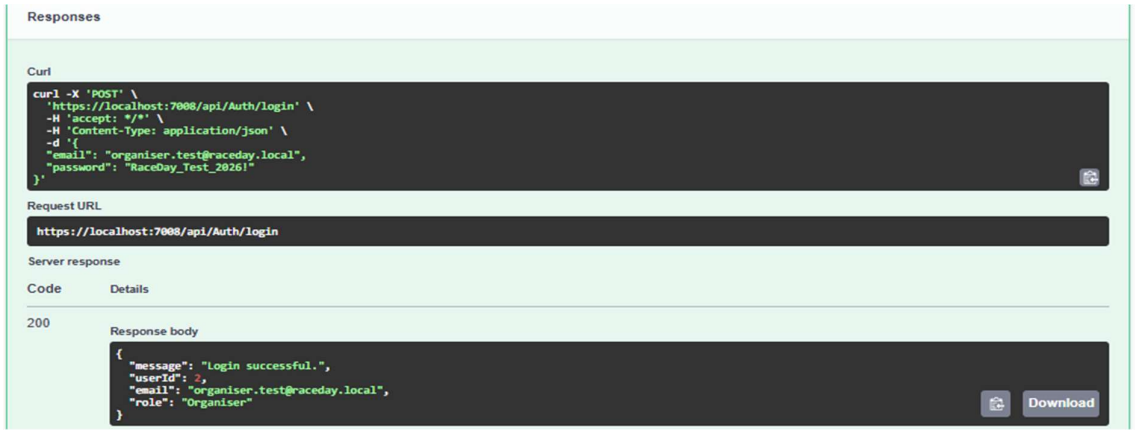

{

"email": "organiser.test@raceday.local",

"password": "RaceDay_Test_2026!"

}

Logged in as organiser

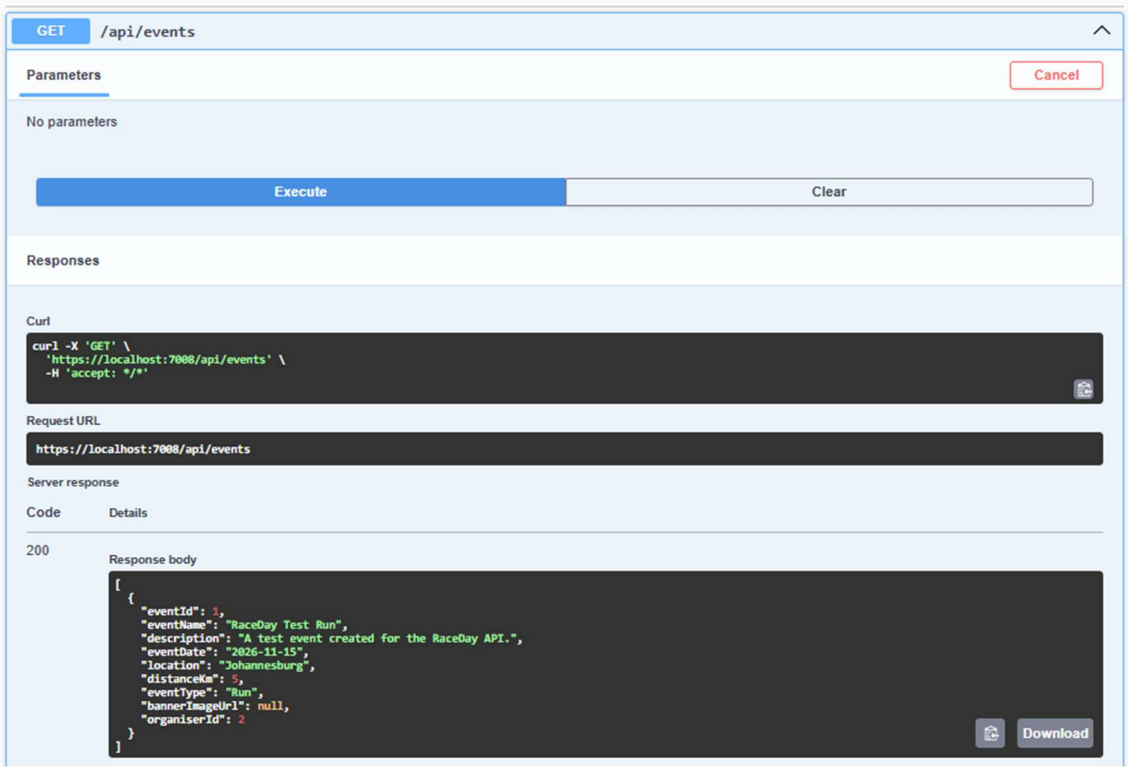

```
{
  "eventId": 1,
  "eventName": "City Fun Run",
  "description": "A sample running event",
  "eventDate": "2026-11-15",
  "location": "Johannesburg",
  "distanceKm": 5.00,
  "eventType": "Run",
  "bannerImageUrl": null,
  "organiserId": 2
}
```

Event creation as Organiser has passed

Verify the event was saved

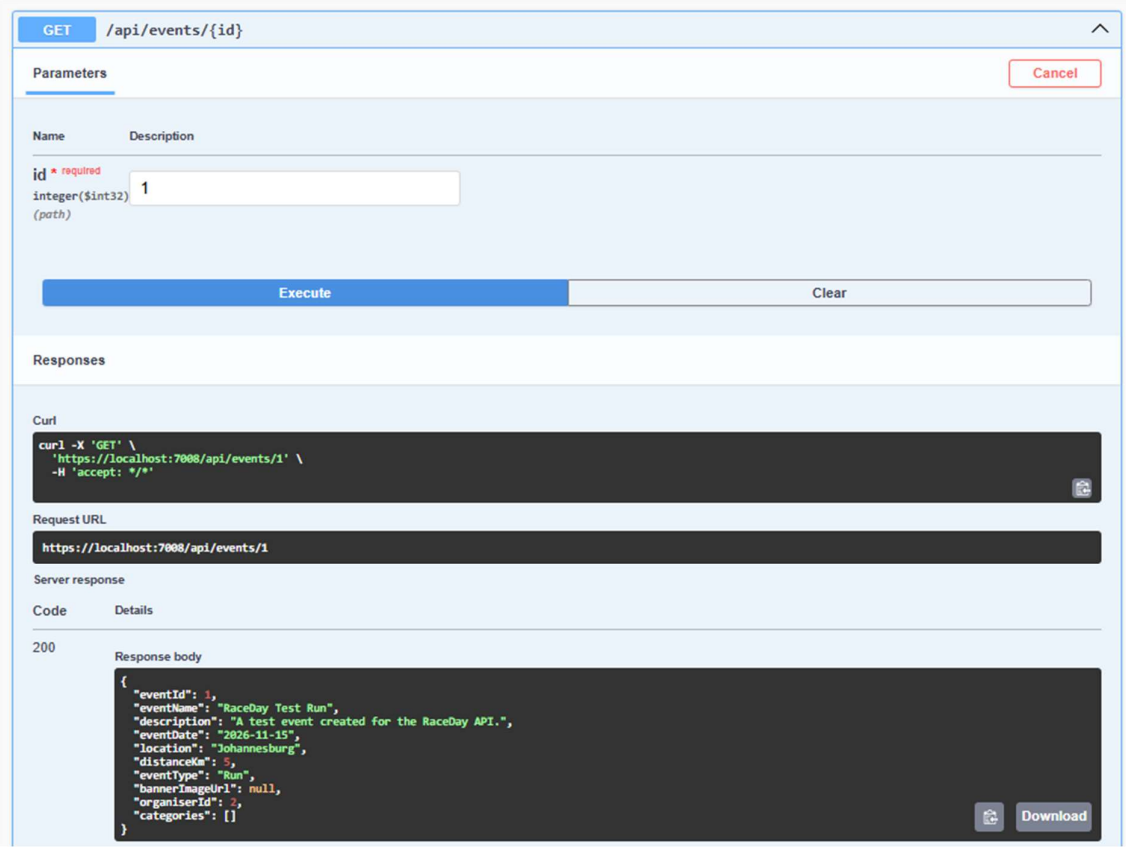

Test Participant access

Verify that a Participant cannot create events.
Result: HTTP 403 Forbidden.

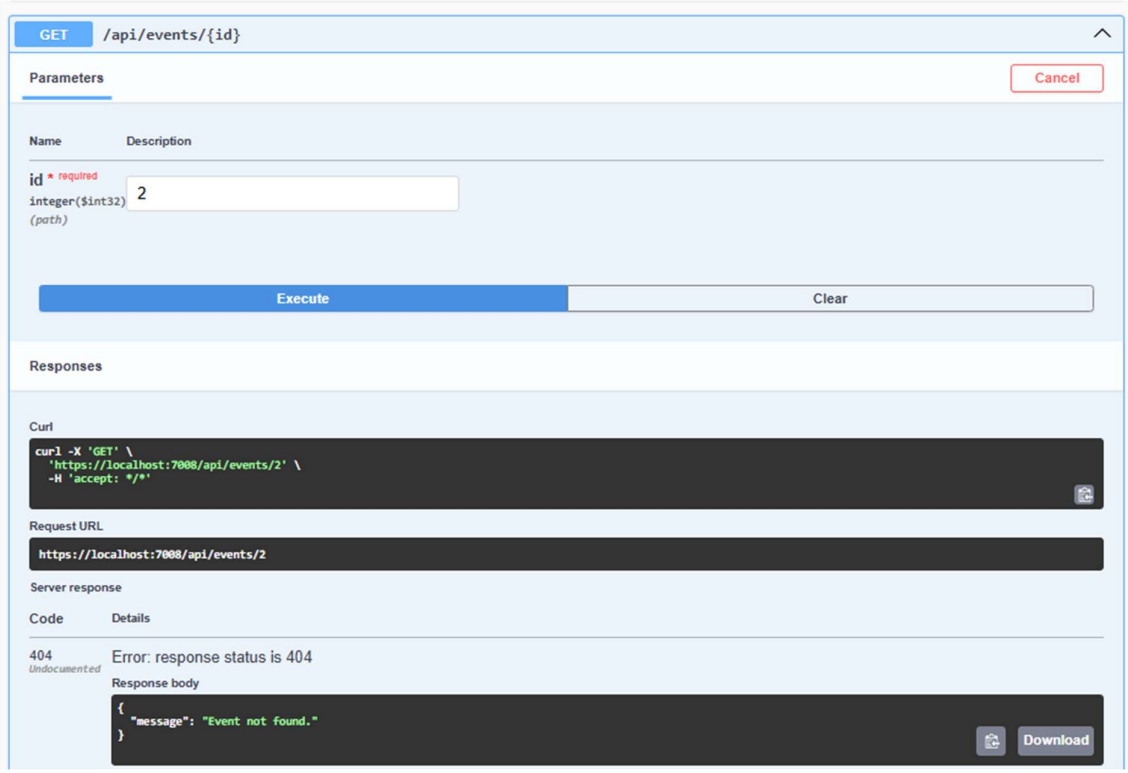

Test GET /api/events/{id}

HTTP 200 — event details returned ID 1

ID 2 not Found

HTTP 404 — Not Found

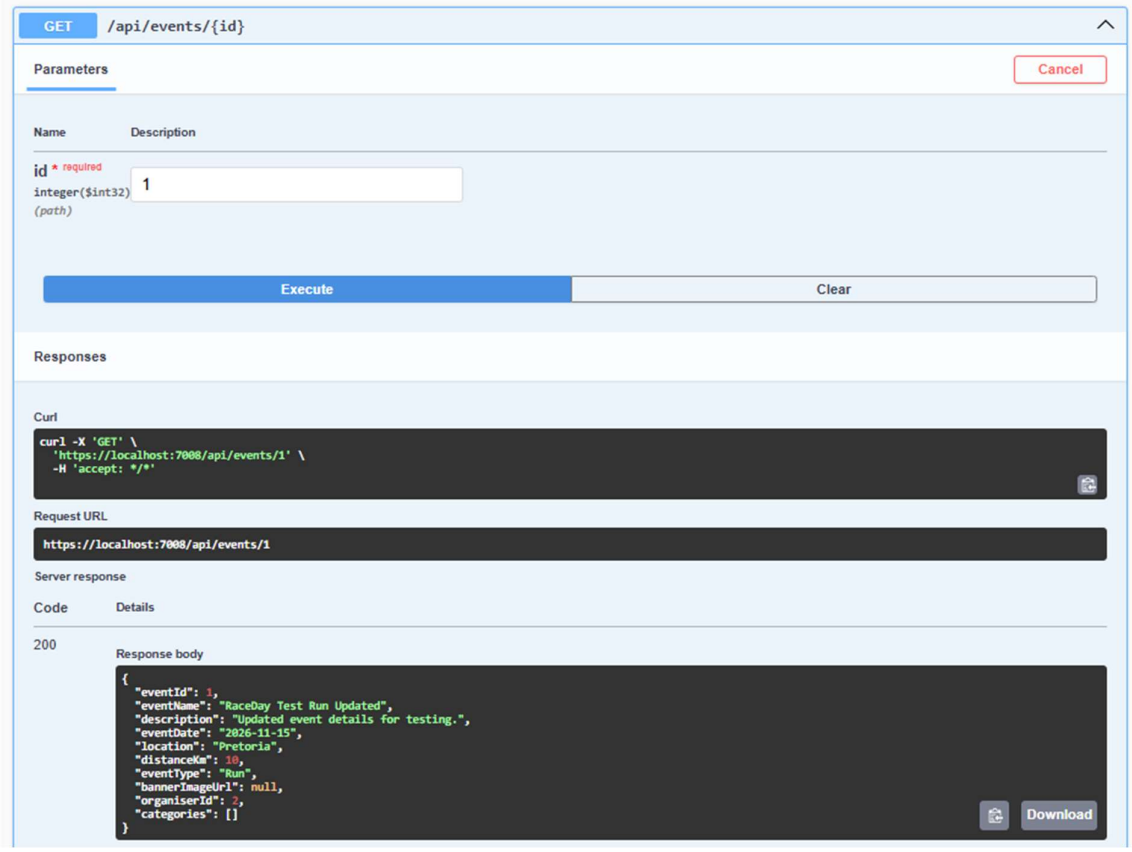

Test PUT /api/events/{id} as the event owner

HTTP 204 No Content. This means the event was updated successfully.

Event Updated

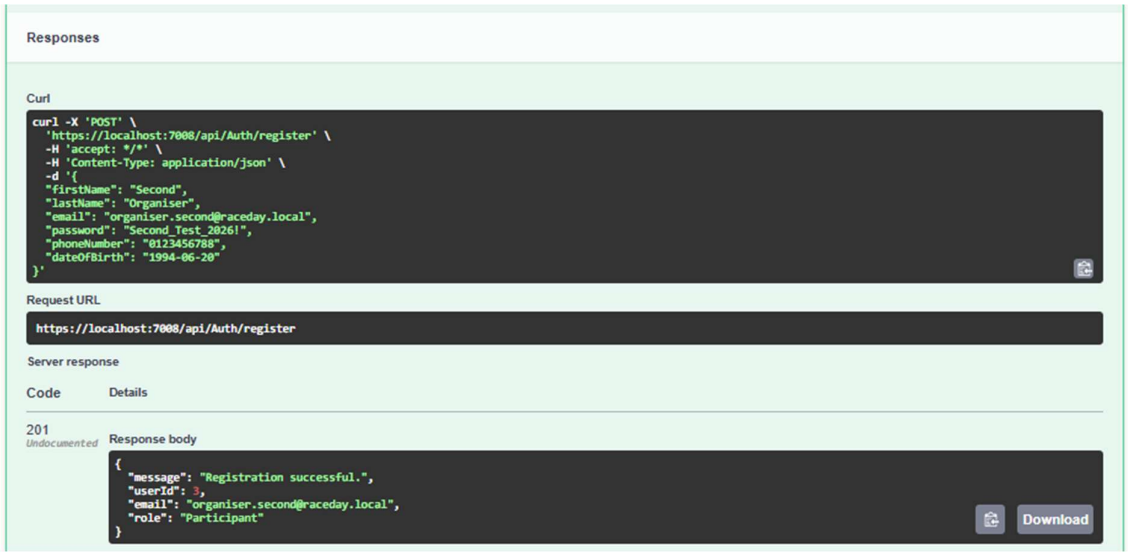

HTTP 204 — update succeeded

Event Update Test

Second Organiser

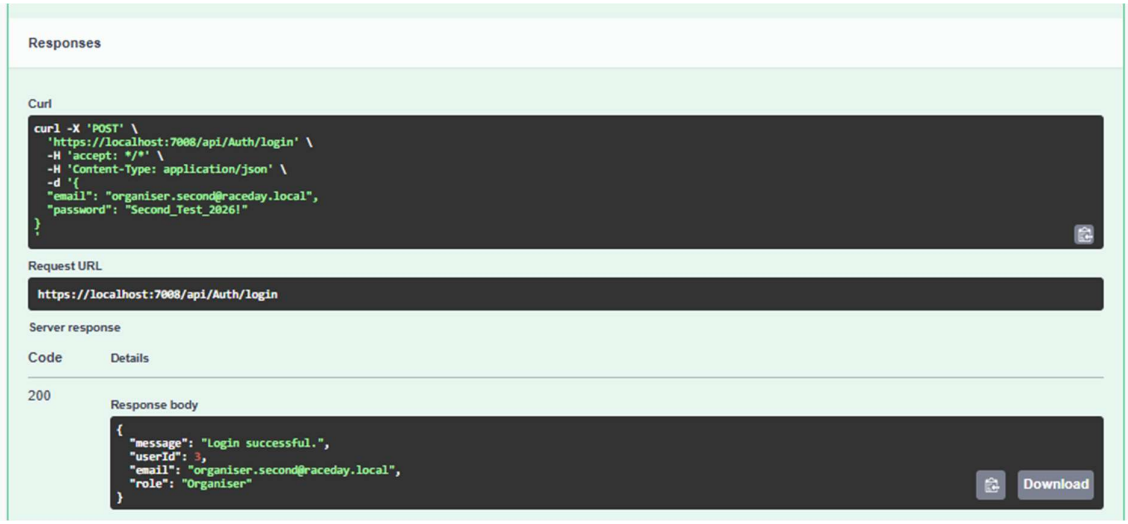

```
{
 "firstName": "Second",
 "lastName": "Organiser",
 "email": "organiser.second@raceday.local",
 "password": "Second_Test_2026!",
 "phoneNumber": "0123456788",
 "dateOfBirth": "1994-06-20"
}
```

```
{
 "email": "organiser.second@raceday.local",
 "password": "Second_Test_2026!"
}
```

Test event ownership in Swagger

{

"eventName": "Ownership Test Update",

"description": "Testing organiser ownership permissions.",

"eventDate": "2026-11-15",

"location": "Pretoria",

"distanceKm": 10.0,

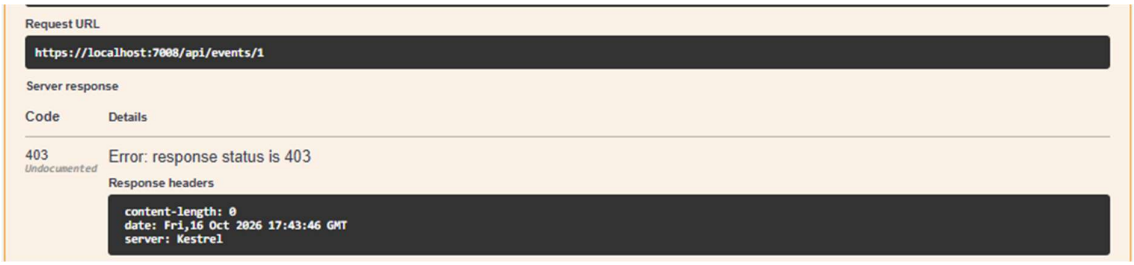

"eventType": "Run",

"bannerImageUrl": null

}

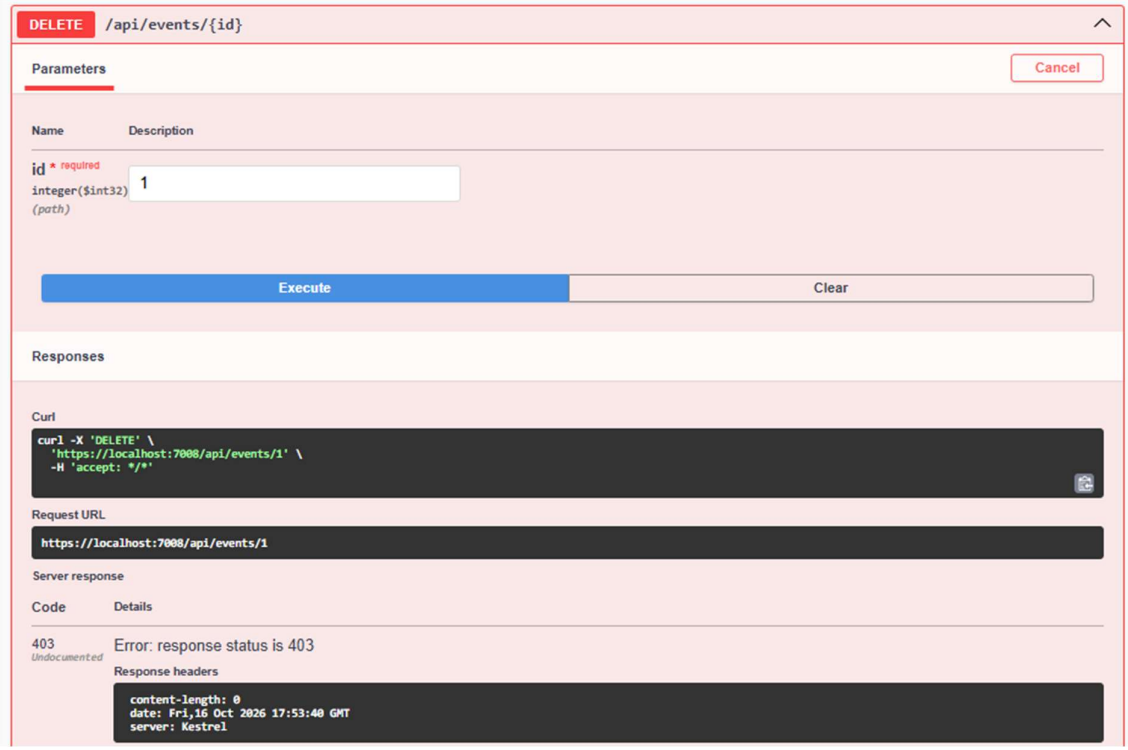

Try to update the first organiser's event

HTTP 403 Forbidden.

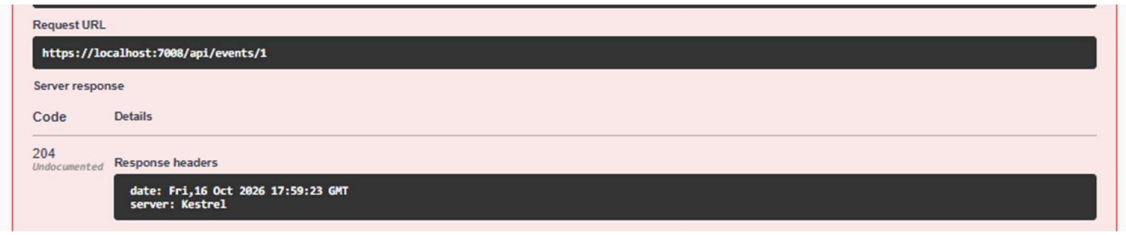

Test deleting another organiser's event

Response: 403 Forbidden. Cannot delete another's organiser event

Delete an event of the First Organizer event owner

Response: 204 No Content. Deleted successfully

Result: 204 No Content.

404 Not Found.

Create a fresh event for category testing

```
{
 "eventName": "RaceDay Category Test Event",
 "description": "Event created for testing categories.",
 "eventDate": "2026-12-05",
 "location": "Pretoria",
 "distanceKm": 10.0,
 "eventType": "Run",
 "bannerImageUrl": null
}
```

201 Created

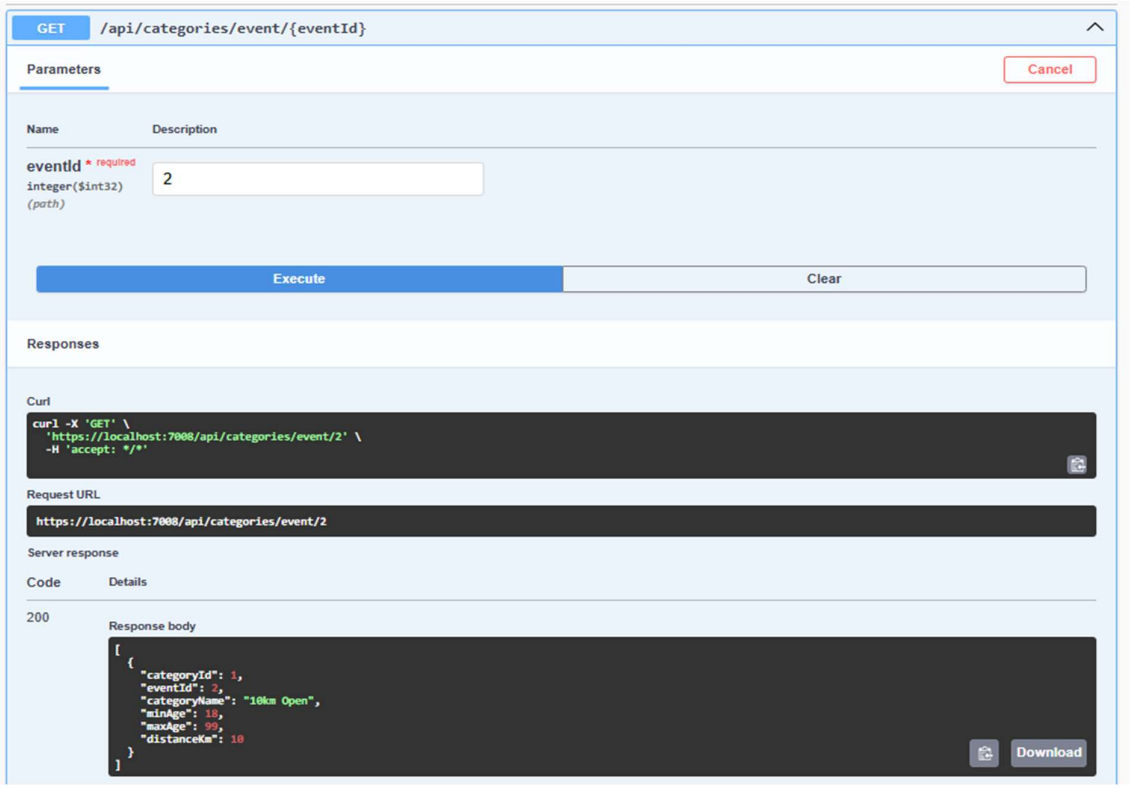

Create the category

201 Created

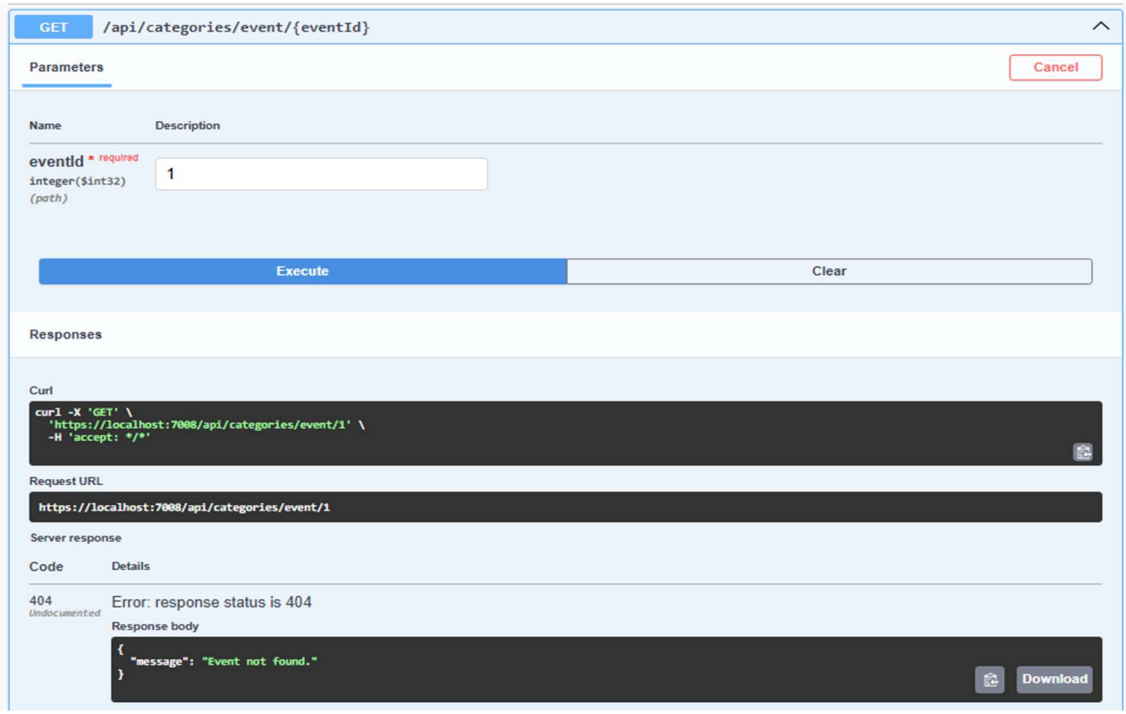

Retrieve the Categories

Result: 200 OK

Test a nonexistent event

404 Not Found

Test Category Ownership Protection

Log in as the second Organiser

403 Forbidden

Test duplicate category → 409 Conflict

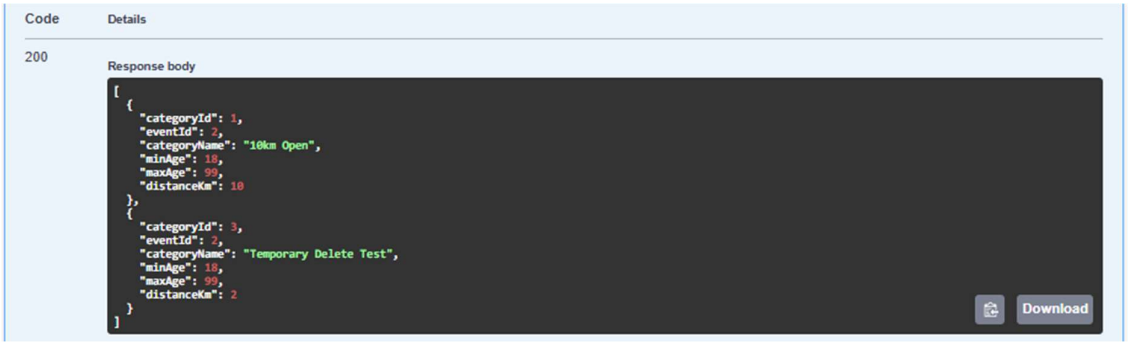

Log back in as Organiser 1

Test Category DELETE

Create a Delete Test

201 Created.

Delete the temporary category

204 No Content

Verify it was deleted

200 OK

Log in as a Participant

{

"email": "raceday.test001@example.com",

"password": "RaceDayTest2026!"

}

Create the enrolment

201 Created

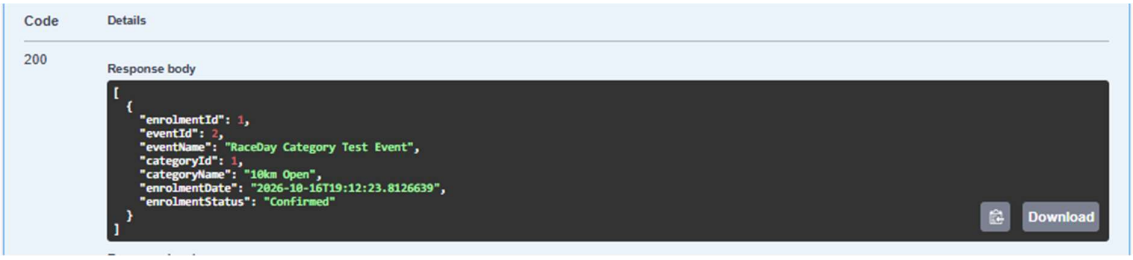

Test duplicate enrolment

409 Conflict

View the Participant's own enrolments

200 OK

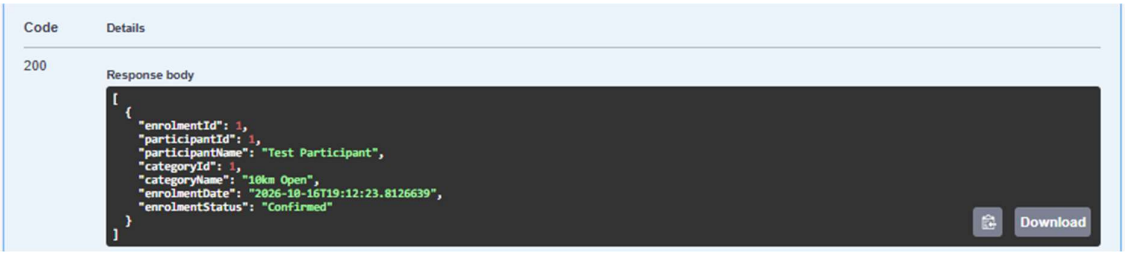

Test Organiser Viewing Event Enrolments

```
{
  "email": "organiser.test@raceday.local",
  "password": "RaceDay_Test_2026!"
}
```

Test Organiser Viewing Event Enrolments

200 OK

Test Event Deletion Protection

409 Conflict

Test Category Deletion Protection

409 Conflict

Record one result

201 Created

All tests passed
